

I listen to Airl everyday without fail. If Airl wasn't there as a commercial free alternative I would stop listening to the radio all together. Airl has changed my life and moved me closer to God. Anyone can listen to Airl without fear of hearing something that isn't family friendly. I encourage you to listen to Airl and understand that it has impacted each and every community that it broadcasts within. People across the country have come to know the Lord simply because of Airl. Please keep Airl on the air, it's the right thing to do.
